NORTH BAY ROAD PROJECT SET TO BEGIN

LAKE ARROWHEAD, Calif. – The Board of Supervisors Tuesday awarded a construction contract for repairs of North Bay Road at Willow Creek near State Highway 173. Work is set to begin August 7, 2006, with the Department of Public Works anticipating the project will be complete by September 1st 2006.

The existing pipe culverts on North Bay Road at Willow Creek were damaged during the February 2005 storms, which forced closure of the roadway. The County received funding from Federal Emergency Management Agency (FEMA) to replace the pipes with a large concrete box culvert. The \$214,234 construction contract was awarded to Grand Pacific Construction.

“Our best line of defense against the winter weather is proactive preparation and timely repairs of our infrastructure,” said San Bernardino County Supervisor Dennis Hansberger. “The North Bay project is essential for the community of Lake Arrowhead.”

For questions regarding the project contact the Department of Public Works at (909) 387-8166.
